### **Curse and Jyotirlinga**

We all human beings enjoys the fruits or suffers in different areas of life according to our deeds of past birth, The level of sufferings or fruits depends upon our deeds of past birth, but ultimately this is sure that one has to suffer if he has mistaken or one has to enjoy if he has good balance in his A/c, We don't know what mistake we have done, what was the level of that , but how we can comeout from that and minimize the sufferings this has been tought in old scriptures, and this helps us in living life smoothly. Jyotishi is nothing but a person who shows 'jyoti' (light) towards the 'ish' (god) and bring you out from the sufferings, So as a jyotishi I am putting here my limited knowledge on removal of suffering thru worshipping 'Personal' Jyotirlinga .

Very few of us would be knowing that every jyotirlinga among all 12 Jyotirlingas are mapped to one rasi (zodiac sign) and maharshis have tought us that every person has a personal jyotilinga (A Jyotirlinga which is directly connected to his Atma like Ishta devata) and one can get it from his birth chart (by a special method jyotishi can study it) and by worshipping it we can comeout from past birth sins, we can increase our glow and radiance and get success in area of work and live a smooth life.

Your horoscope or birthchart doesnot only says about your personal jyotirlinga or ishta devata , He also tells us about the type of curse and source of obstruction in our work or growth. Like jyotirlinga there is a special sign in every chart which says about the type of obstruction and area where you will be obstructed.

Everyone among us must be having some general knowledge about astrology like there are 12 rasis and 9 planets , Every planet has one exaltion (uchha) sign where he feels most confortable and produce excellent results , Sun becames exalted (uchha) in mesh , Jupiter in karka, venus in meena, moon is vrishabh, rahi in mithuna, mangal in makar, shani in tula and budh in kanya. Every Jyotirloinga is mapped to a sign in following order...

Jyotirlinga	Sign	Planet (Exalts)
1. Rameshvara	Mesha/ Arise	Sun
2. Somanatha	Vrishabh/ Taurus	Moon
3. Nageshvara	Mithun / Gemini	Rahu
4. Omkareshar	Karka / Cancer	Jupiter
5. Vaidyanatha	Simha / Leo	-
6. Mallikarjuna	Kanya / Virgo	Mercury
7. Mahakaleshawar	Tula / Libra	Saturn
8. Ghrshanesha	Vrishchik / Scorpio	-
9. Vishvanatha	Dhanu / Saggitarius	-
10. Bhimashankara	Makar / Capricorn	Mars
11. Kedarnatha	Kumbh / Aquarise	-
12. Tryambakeshwar	Meena / Pisces	Venus

Like exaltion sign every planet indicate type of curse or source of obstruction, Lets take an example , in chart of bhagwan shri ram 5 planets were exalted which gave him such kind of never ending fame and made him great king, Even ideal of thousand crors of the people , same time he suffered a lot and faced such a big battle before 'Rajyabhishek' (*because Due to curse on sun either he would not be able to enjoy that or he had to remove that curse*), His Sun was placed in exalted position (in mesha ) in 10<sup>th</sup> house (*the house which deals in career, profession and social status*) which is already a good position for sun , So being sun was here and strongly placed it was sure that Ramji had to enjoy such longlasting fame and huge kingdom but simultaneously sun was aspacted by two major negetive planets, Saturn from 4<sup>th</sup> house (*4<sup>th</sup> is the house for home and mother so obstructions started from mother and home only*) and Rahu from 6<sup>th</sup> house (*6<sup>th</sup> is the house of enemy and rahu is a demon planet placed here so things ended with battle with a demon*) and indicating towards the curse of the father, due to which he suffered a lot , In his real life also he faced obstructions in getting and enjoying the kingdom and the ultimate source of obstruction was the father. At last he visited Joyirlinga 'Rameshwaram' to remove the curse of father (*As sun was cursed so Rameshwaram was the right jyotirlinga because it is mapped to Mesh rashi and mesh is the exaltion sign of sun*),
