As like every year 2011 has stepped out and 2012 is knocking the door but what gifts 12 has for us in his hands is very important to know. Year 2012 is year of no 5 which is mercurian no, Mercury represents, communication and telecom, finance, commerce, youth, Games and Development, These areas will be the highlights of the new year, coming year can be seen as milestone for telecom and communication industry, social networking will be increased, IT industry will take pace. Being no of youth , young generation will come forward to head the nation , Very much expected that Rahul Gandhi (No 1) becomes very strong after UP elections. Over all new changes are expected in coming year, financial condition will see ups and downs, sansex may touch top and bottoms lines.

Mercury is very sensitive planet and moves very close the the sun, this year can be year of natural disasters, 2012 is known as 12 which is name no of 'INDIA', this year can be very important for our country, '12' represents ups and downs, 1 is for sun and 2 is for moon, sun is no of height and success and 2 is no of instability, this no indicates towards the higher level of instability coming year.

Previous no 5 years have experienced major tragedies and natural disasters world wide, presence of mars in Leo in 12th house in yearly horoscope of new year is not a good sign, coming year may give some threats , some natural disasters and terrorist attacks may shake the country, specially feb, april, aug and nov months are tough.

Position of mercury in yearly horoscope is not well placed , mercury is placed in enemy sign scorpio alongwith the rahu and aspected by the enemy sign lord mars, this position indicates towards a financially tough period, new challenges are expected this year in said area , being rahu is placed along with mercury financial downfalls may be experienced and mercury is also ascendant lord and 2nd and 5th lord of Indian horoscope so fast recovery can be seen . Fifth house represents power and position, mercury is 5th lord of horoscope , weak position of 5L in

yearly chart shows loss of reputation in worldly status due to downfall of Indian currency but still recovery can be expected as mercury represents financial condition and presence of friend rahu with it shows ups and downs both.

Sun is placed in 4th house and aspected by Saturn shows tough political situation , Indian horoscope is already passing sun-saturn dasha from coming jul -12 so 2nd half may show major ups and downs, this also indicates towards gap with neighbor countries.

9th and 10th lord Saturn in 2nd house in yearly chart is a very good indication for getting our black money back from foreign banks and 'Lokpal' kind of movements, Big names involved in corruptions and scandals will continue to go jail even beginning of new year will give such kind of hot and sensational news. Exchange of venus and Saturn is a very good combination for females, **females will be in power everywhere in country specially in politics and corporate.**

Guru in 8th is not a good position in yearly horoscope but aspects of guru or good on 4th , 2nd and 12th, Losses due to fire and violence and injuries due to food poisoning may take place coming year , everyone should be very carefull for this to protect ourselves and our surroundings.

At last Very happy to new year to all of you.....
