Important Criteria for Horoscope Matching

A Small chart named horoscope of 12 box with nos 1 to 12 and names of nine planets written in it is a very important secret document of our life, It carries whole of our life history with it, right from our birth to till the end. Every small or big moment of life has stored in it.. Its different we ordinary human beings are not so expert who can read it at very micro level.

Infact not even life events even physically and mental characteristics are also noted in it. In early days our ayurveda experts used to read the horoscope for judging medical history or test and upto my research and understanding of jyotisha horoscope gives the accurates results. Matching of horoscopes of boys and girls before matching is very common from the early days, still in IT age it is considered first important step for fixing up marriage, Why it is considered so important ? Marriage is boundation of relation between girl and boy , where they both are bounded together in physical and emotional relationship. As per the tradition parents of both check all the required criterias before fixingup the marriage i.e. Family, financial standing of family and boy, looks and personality according to partner and education, still there are some important points which are important for parents to judge. And a horoscope can only uncover those points.

Erlier there was no as such culture of meeting or even looking to partner , only parents used to see them and fix the marriages, infact in these days also a single or few times meeting can not describe about the nature of the partners so while matching the horoscope parents and partners can understand the nature.

First important object for making the marriages is to procreate further generation of the family, so while fixing up the marriage horoscope can tell about the procreative abilities of males and capacity of female to give the birth of a child, even chankya has said , those should not marry who either don't will to produce a child or not capable to give birth to a child. So physical fitness for giving child birth and compatibility between both of them for that should be checked importantly.

A very healthy married life required honesty in relationship, Horoscope can tell about the nature of partners, or such kind of future incidents in their charts for cheating to each other. **So parents and natives should discuss everything with the astrologer openly.**

What doctors are saying in these days for HIV positive tests before marriage was the common practice of our astrologers in early days, Where people used to ask about future health condition of the boy and girl, infact if such kind of conditions are there due to horoscope of partner then astrologer should also check for the cancellation of those combinations, even still people discuss this with the astrologer, **I don't talk for those who go to a computer centre and get kundlies checked by fix software. That can only tell you about the points which is very insuffeciant matching for the marriage.**

Length of married life is required point to know , intelligent astrologers checks for such kind of combination which says about the break of marriage in different conditions, Cancellations of such negative combinations are also important to check to avoid the confusions. Presence and cancellation of yogas like manglik dosha should be checked seriously.

Money is very important object to live the life , While fixing the marriage parents of the girls gives first attention to the financial capacity and earning capability of the boy, but what is stored in fate is very important to know, sometimes after marriage conditions turns up and both the suffers , this could also be due to miscompatibility or due to misfortune of anyone.

No one can be the alternate for anyone, based on this theory we should never ignore opinion or need of astrologer , most of the people ignores visiting astrologer and match the charts at home using readmade software and really they suffers, I come across somany true examples where parents rejects the boys on ground of mangal dosha and later on I told them about the presence of cancellation of such yoga.
