### **Guru in Capricorn**

Like every year a most awaited transit change of most benefic planet Jupiter is going to come in first week of December, As like every year this change will be beneficial for so many and negative too for so many. I had already described in my previous article I submitted last year while Jupiter was coming in saggitarious, that Jupiter is considered a benefic planet and responsible for controlling economy and finances, so his movement takes very important place in deciding the overall economy, when guru moves to new house his strength in particular sign plays important role, He feels strong or strengthen when comes in any friendly house, year 2007 Guru was in scorpoio where friend mars energized him and guru also felt very comfortable and adopted materialistic mood, result of which we all knows, 2007 was year when all the businesses were on boom. Guru gives proparity, represents growth , 2008 Guru moves in saggitarious, all the predictions failed , everybody was thinking that Jupiter will spread more prosperity and this will be the year of growth but all predictions went fail, including me. As Guru moved in saggistarius which is his own sign changed the scene, prices which were touching sky came on the earth, stock markets, real estate sector and even highly demanding consumer product like oil too.

What was the logic behind such downfalls even boss of growth and finances Jupiter was in own house ? It was so simple, we all forgot ultimately Guru has a satvik nature and believes in realistic growth and life style. He does not believe in materialism , show off and falls hikes of money. So a satvik natured Guru has to take rest in 'kutiya' for full year so he brought down all the hikes on the real place , countries and people who were over materialistic ,were not following correct path on dharma , don't had values for their culture and family.

If you seriously observe the overall national and international financial condition you will realize the fact.

Almost 7<sup>th</sup> Dec 08 Guru will be moving to Capricorn sign (maker rasi) which is a debilitation sign for the guru, Guru becomes here neecha, better in layman language most uncomfortable, As stated earlier in previous article this guru is not only the overall controller of economy and prosperity, he is the controller of culture, social values, national values and if we see for an individual he works filter of thoughts, he keeps full controls on thoughts in an individual, if he is weak in one's chart one chooses the wrong path and may fall in anti-social or religious acts, stronger guru in chart stops choosing wrong path and keeps one on right track. This is not the only end, most sativik planet guru is going to accompany a materialistic planet rahu for almost full of year 2009, a saint and a demon both at negative place, we can imagine, surely this is not a place of guru where rahu adopts pure thoughts and comes on right track, here guru in negative phase.

This will be not a good period at all, people with materialistic mindset will be more materialistic, who are not in such lifestyle or nature will also feel a change in mood, people with jupitirian sign (sagittarius and pisces) will come in touch of such kind of incidences where they may be forced to adopt wrong path or indulge in such kind of over materialistic activity, their strictness to be on right path would be challenged. If they become rigid and strict on same path they will win the battle, and Guru will surely bless them.

Anti social activities and scandals which should be in closed doors only could come in news. People with high level position on religious trusts or big names may face litigations during this period, even during feb-mar-09 when mars would also join Jupiter and rahu in Capricorn, possibilities of terrorist attacks on famous religious places would be so high.

Rahu is basically a threat giving planet, he gives sudden changes, if positive for chart then surely positive changes but if not in good relation with lagna lord and passing bad dasha then negative faces, when conjoins guru forms Guru-chandal yoga, so he people with jupitirian sign may face such kind of sudden changes in life. Definitely these ups and down would apply on overall economic scenario, Market may sometimes be seen as going to high and stable but that will be a show off rahu, it won't be related with nature of guru, Guru is debilitation would continue his downfall or slow movement in market. During the period when mars will accompany him in Capricorn sign market condition may be seen stable or going high specially real estate sector may be seen like coming out from downfall but that will be for a very short span of time.

Saturn will forming 6/8 relation , known as 'shadshtak yoga' , This will give sufferings to lower class people, ofcourse reason could be economic scenario. Country has to seen important loksabha elections where parties and their candidates have to face jupiter's negative this transit. People with aquarise and Leo moon sign have to suffer more due to very bad relationship with Jupiter in transit , for aquirians this will be 12<sup>th</sup> transit of Jupiter which may give losses, worries, desputes, mental anxities and litigations, where people for the people with leo sign Jupiter will be 6<sup>th</sup> from their sign, this is at all not a very good transit for them, when Jupiter was in saggitarius it was 5<sup>th</sup> for the India, which resulted very bad , India has seen biggest downfall in during this transit, I observed all the natives with cancer sign for whom it was 6<sup>th</sup> experienced financial losses or health issues. People with leo should take it very seriously , speicaly natives with Jupiter in Capricorn in their charts.

Unfavorable position of Jupiter itself reduces the registrance power of the chart and people will themselves bounded by the problems or self becomes the cause for inviting the problems, reason could be anything.

Arise natives may face some career related problems as this will be 10<sup>th</sup> transit of Jupiter for them, scorpions may feel more journeys, bad debts, some family tensions and relocations as this would be 3<sup>rd</sup> for them .

Virgos have seen really a tough time during last transit when it was 4<sup>th</sup> from their sign they will feel relieved but important precautions for them to be strict with their path, they may be misguided , they may feel wrong company of friends, same Librans have to be careful for coming here for all kinds of breakoffs, and disputes in relationships . How much careful they live but overall they are going to face some tensions.

Taurus , saggitarius, cancer and pisces sign are going to be most favorably benefited sign due to their 9<sup>th</sup> , 2<sup>nd</sup> , 7<sup>th</sup> and 9<sup>th</sup> transit from the Jupiter. Still results wont be as same as regular transit because this year Jupiter would be under debilitation and alongwith the rahu. Different results with different horoscopes, so results purely depends upon the position of the Jupiter in the horoscope and other important factors.

Still I believe when Jupiter is neecha so all those who pray to Jupiter always, follow his directions , be on correct path, follow values for family and country would surely be benefited. We all can se example powerfull coutries who were not on reality grounds how came on the earth but we Indian are still very safe, reason is simple we are bound with our roots, we believe in our traditions , still we believe in spending according to our income.
