### **Saturn - Coming Transit from Cancer to Leo**

July 17, 2007 a planetary change is going to take place , Normally every day and every moment some changes takes place but when matter of Saturn comes then his name only sounds different and creates vibration.. Transit of Saturn from one sign to another takes place in every two and half hour. This year he is moving in Leo from Cancer, Last time when he came into this watery sign (cancer - sign rules water) so many disasters attacked and disturbed human life, Tsunami and RITA can not go out from our minds easily. Anyways here our aim is to discuss about the general effects of coming transit on comman human beings. So before coming to topic we understand about Saturn.

Everybody read something or knows about the Saturn, Here I have tried to conclude it in different language. **Saturn is a planet of justice so he gives punishments and fruits based on your karma, either past birth or current , He carries your sins with him , if he is weak and is not able to carry your burden he shows it to you, which results either with your sufferings thru his punishments or you die.** He is a dharmaraja , his position in chart decides the level of your sufferings. On every transit on

his he affects a general human being and again level of fruits or worries depends upon his position in one's chart.

We will discuss here effects of his coming transit on different moon signs (rasi) .

### **Sade Sati**

Transit of saturn in 12<sup>th</sup> , 1<sup>st</sup> and 2<sup>nd</sup> rasi from the one's rashi (moon sign) is called Sade Sati, Why sade sati because he takes seven and half years to complete this tenure , for example coming transit of saturn will be in Leo (simha) so 12<sup>th</sup> from this will be Cancer, 1<sup>st</sup> from this will be Leo itself and 2<sup>nd</sup> from this will be Virgo (Kanya). Fear of sade sati in common men's mind is known very well , but fact it is not so danger as it is famous. Let us discuss here first three rasi which will be effected mainly.

### **Cancer (Karka)**

Natives of this rasi suffers more as compare to other natives, Area of life where we suffers more always depends upon the placement of Saturn or representation of houses in one's chart . Lord of cancer moon is the direct enemy of Saturn and deals in happiness in one's life, Saturn by doing justice sets the level of his happiness.

These people continue with keeping tensions on their mind, obstructions in every work, legal matters and over expenditure will give major shocks.

### **Leo (Simha)**

People with this Royal sign have to be careful in coming days, downfall in current position or status is indicated. Natives in Government service or connected to government have to be specially alert and active, transfer order on ready to deliver that too odd locations. If one is busy in legal issues things will continue and more trouble will arise from authorities.

We discuss it in a very easy way, Saturn represents low class public or mass where as Leo governs people with authorities so I understand all people related to Authorities with this sign has bear some sufferings.

### **Virgo (Kanya)**

Expenses, shortage in income , fear of theft and losses are the major cause of your tensions. Natives of Virgo have to be very careful in business dealings, while giving loans and investing money anywhere.

### **Ashtam Shani**

Similar to the sade sati when Saturn transit to 8<sup>th</sup> house from the natal rasi or moon sign known as ashtam shani. Transit of Ashtam shani to the native of particular rasi gives tensions in career front , business matters , money matters and health issue.

### **Capricorn (Makar)**

Natives of makar rasi have to be very alert after this transit of shani dev, If they have tensions at job front , desputes with partners or expecting transfers then they should finish these matters immediately, or handle them very carefully because Saturn is going to punish them in these areas.

This was highlight on effects of Saturn on rasis who will be mainly effected, now we understand its effect on rest rasis.

### **Gemini (Mithun)**

A time for great celebration because all the pending works which you were trying to finish up or expecting good news on their account are going to finish. Matters related to growth will take speed and obstructions from your path will be removed. Ulitimately you will not only find great relief even going to get good gains.

### **Taurus (Vrishubh)**

I see good positive change related in your career, infact people with stronger venus may get chance to move out from current locations, People waiting for their VISA or ticket to move out , pls. Keep your luggage ready. If you have weak Saturn in their chart remedy it to make strong because this is a right time when Saturn will give you something.

### **Pisces (Meena)**

Problems related to health will be surely vanished off, If you are passing any legal battle then court will sign the decision in your favour. If we discuss about the sign who is going to take the major benefits from the Saturn then he is Pisces, Saturn will transit 6<sup>th</sup> house from their rasi and going to kill all the enemies, health related issues and keep control on your losses.

### **Arise (Mesh)**

Change in residence or location, expenses on account of home property, disputes on account of property are the major effects of Saturn to the people of Arise. Don't deal any property matter casually.

### **Libra (Tula)**

Another favouring rasi other than Meena is Tula, natives with these rasi will feel proud on themselves. Libra is the sign where Saturn gets exalted, means became so powerful, here in coming transit Saturn will be 11<sup>th</sup> from this sign (house of gains, profit in any term will increase) and aspect directly this sign and shower his blessings. Pls. demand whatever you can demand from Saturn.

### **Scorpio (Vrishchik)**

Not the time for happiness, work load. Even after too much of work less salary or gains. Things will be always tensed at workplace. Keep yourself cool and keep patience.

### **Sagittarius (Dhanu)**

Natives with sign will find good relief because currently since past two and half years they are suffering from Ashtam Shani, coming transit will give them good relief from anger of Saturn.

### **Aquarius (Kumbh)**

I understand these people will not have much effect with coming transit, but of course if Saturn or Venus is strong in their charts they should keep themselves ready for regular tours.

## **Remedy**

Saturn is ultimately god of justice, he believes in peace, whatever sins you are carrying but if you donate from free hand , serve and respect to your parents properly, serve and feed cow and help to lower class people , one will not suffer his punishments , he will forgive and even shower his blessings to all , whether you visit to his temple or not.

If you still fell some remedy should be tried then following should be followed.

1. Natives who are suffering sadesati or ashtam shani should recite shani rudram 11 times daily morning after taking bath, keeping face in east.
2. Lightning 5 lamps (made by aata and oil) at shani temple every saturday is good in his respect.
3. Reciting Hanuman chalisa on daily basis is also a good remedy for reducing his anger.

These are the Remedies for a comman human being, but still effects of these transits may be different , case to case basis and their remedies may also be different.
